

DATA MONITORING COMMITTEE (DMC) SERVICES

Bring along an independent partner to support DMC members and manage logistical challenges.

PharPoint has extensive experience supporting and managing Data Monitoring Committees. Biostatisticians at PharPoint are routinely involved in DMCs whose outcomes may affect cohort enrollment, dose escalation-de-escalation, study modifications, and study continuation.

Experience providing DMC services since

2007

LOGISTICAL SUPPORT FROM AN EXPERIENCED **DMC COORDINATOR**

To overcome challenges surrounding logistics and processes, PharPoint's DMC Coordinators dedicate ample time to properly supporting committee members and ensuring effective communication.

300+

DMC meetings as independent or voting statistician

Statistician participation in

160+

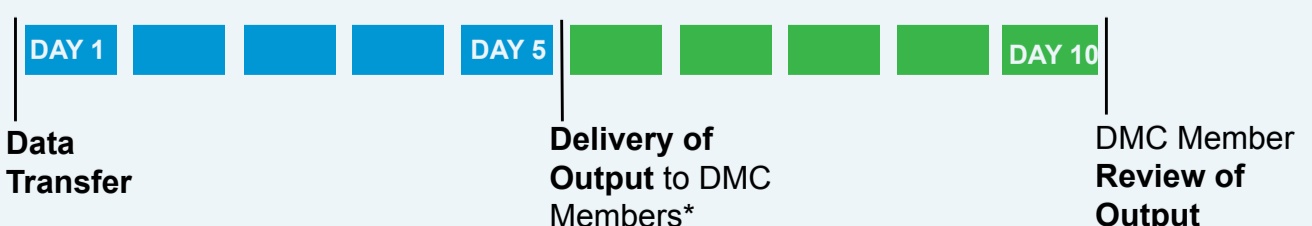

unique protocols

SERVICES INCLUDE

- DMC Charter development, authoring & review
- Committee member selection
- DMC member training on design and analyses interpretation
- Administrative management, including scheduling and facilitating DMC meetings
- Table, listing, and figure(TLF) preparation and distribution
- High-level summary report to accompany DMC TLF output
- Statistical design and support for mid-study adaptations and efficacy evaluations
- Archival of documentation to support Trial Master File (TMF) filing at study conclusion

QUICK TURNAROUND

DMC analyses are created using the same programs developed for final analysis, with quick turnarounds to minimize the chance of enrollment pauses.

*Dependent on timely receipt of data
